continuous

Tour Itinerary

1 : The Scuba Diver course

The Scuba Diver course has three parts, and starts right in the comfort of your own home. Everything begins with the online training or 'eLearning'. This takes you through all of the initial theory, and skill introduction, with quizzes along the way to check your understanding of the diving concepts. Again, where this is not the full Open Water course, you only need to complete the first 3 sections of the online theory.

Once you are here in Port Douglas, the second and third parts of the course are the swimming pool, and open water training sessions. These are conducted over two days, with the first day being at the Mirage Country Club facility, where we learn and perfect the basic dive skills needed for open water divers. This practice time in the pool is the perfect opportunity to become familiar with your equipment, try-out your new skills, and gain confidence, all while diving in a safe and fun environment.

The second day of the course is spent at the Outer Great Barrier Reef, putting all of your new abilities to good use, as you explore stunning dive sites. During your two training dives, we build on everything you have learned so far, by introducing the use of dive computers, how to plan your own dives, and to

employ environmentally responsible dives practices. With our schedule including 3 dives per-day, you will have a third and final dive at the reef, which is included in your course at no added cost.

With all of the training completed, we then complete the simple application process for your new certification, with a digital 'e-card' issued to you via email, which can then be downloaded to your device, ready for the next time you go diving!

2 : Price

- \$1095 per person
- Minimum of 2 divers required per reservation
- 1:1 bookings available at added cost
- Includes taxes and credit card fees
- Prior booking essential

: Highlights

- 2 day course
